Citing a Web Page

Look for these key citation elements:

- Named author or creator
- When was the information published or last updated?
- “Title of the Page or the Article.”
- *Name of the Website*
- URL

Example:

APA-Style References entry:

APA-Style In-text Citation:

In today’s job market, workers without a college degree earn, on average, about 42% less than those who have a college degree (Cross, 2018).
